MICRO-TOP ST

Nothing Can Top Your Imagination Like Micro-Top ST

Bomanite Micro-Top ST, a specialized decorative concrete option exclusive to Bomanite Toppings Systems Licensed concrete craftsmen can cover virtually any surface. Bomanite Micro-Top ST is a two-part, polymer-modified cementitious coating that is applied in two coats by trowel and specialized sprayer to a typical thickness of 3/32 inch. Bomanite Micro-Top ST is perfect outdoors for concrete exterior restoration, parking structure protection, sidewalk resurfacing, wall refinishing and installation coating, stadium renovation, retail storefronts, swimming pool walkways and balcony deck surfacing.

TOPPINGS SYSTEMS

MICRO-TOP ST

REALIZE The Possibilities.

Durable and Versatile

Bomanite Micro-Top ST has excellent adhesion and weather resistance that is perfect for applying over almost any clean, correctly prepared and primed surface including concrete, cement block, tile, metal and wood. Bomanite Micro-Top ST has the ability to withstand prolonged pedestrian and light duty vehicular traffic. Bomanite Micro-Top ST provides a tough, slip resistant water-retardant coating that substantially reduces water penetration, freeze-thaw scaling and concrete carbonation. It is a "breathable" coating that releases normal entrapped vapor without loosening or blistering. Bomanite Micro-Top ST durability and versatility allows it to be spotted as accent areas, continued up a wall, extended up the side of a building or applied directly to an asphalt street section.

MICRO-TOP ST FEATURES & BENEFITS:

- Excellent adhesion and weathering resistance
- Slip resistance underfoot
- Long wearing under traffic
- Retards water and salt penetration
- Resists ultra-violet degradation from long-term exposure to sunlight
- Environmentally safe (entirely water-based)
- 16 Color Blends plus Customs
- Low Maintenance

Efficient, Effective, Economical

Bomanite Micro-Top ST can be applied in multiple colors utilizing stencils, score lines, taped joints and butt joint patterns can transform an expanse of plain, gray concrete into a distinctive and dynamic area, bringing bold colors and designs where they've never been before for such uses as concrete exterior restoration, commercial entries, sidewalk and patio resurfacing and plazas.

Bomanite Micro-Top ST is entirely water-based making it extremely environmentally safe. With it's low maintenance and it's resistance of ultra-violet degradation from long-term exposure to sunlight, Bomanite Micro-Top ST is the economical choice for a decorative textured surface.

Insist on only the best. Insist on Bomanite Toppings Systems.
