BELCOLORE

Imagine

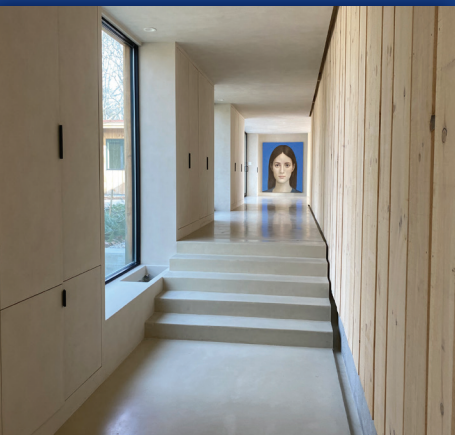

Decorative Concrete Armor

Bomanite Belcolore is a hard layer of decorative fine aggregate concrete cast in place on your typical gray concrete slab. Bomanite Belcolore combines the durability and abrasion resistance of Bomanite Color Hardener with a fine polishing process that results in a floor that looks troweled, feels silky smooth and has colors that will wow you in comparison to your average polished concrete floor. When large aggregate exposure or unsightly local sands are not desired, Belcolore can provide the solution to any decorative concrete dilemma.

Bomanite®

CUSTOM POLISHING SYSTEMS

BELCOLORE

REALIZE The Possibilities.

Durability with Style

The Belcolore System by Bomanite incorporates Bomanite Color Hardener onto the concrete at the time of placement. Once cured the concrete is lightly ground to expose variegated amounts of aggregate, then polished to the required gloss level and treated with a Bomanite stain resist.

The primary benefits to Bomanite Belcolore are the range of colors available, the fine aggregate characteristics and the excellent durability of color. The unique look of a polished, color hardened floor sets Belcolore by Bomanite apart from other conventional concrete polishing systems.

A Myriad of Colors

The colors of the rainbow. That is what's available for Belcolore flooring. You can choose from our 60 standards or request customs for your next polished concrete flooring project. As long as it is installed at the time of concrete slab placement by your local Bomanite specialist, almost any color is possible. Maybe you want a little sparkle in the floor – a hint of mirror glass? Some salt and pepper or a touch of metal granules? We can blend fine decorative aggregates into the engineered hardener that will be slightly exposed when the floor is ground and polished.

Insist on only the best. Insist on Bomanite Custom Polishing Systems.

When you choose a Bomanite Custom Polishing System rest assured that the application will be handled by a highly skilled and specially trained licensed Bomanite Contractor who will work with you to create unsurpassed, high-quality concrete flooring systems.
