Imagine

Elevate your space with Modena TGE — Where beauty meets durability

Bomanite Modena TGE™ redefines terrazzo flooring with advanced material composition, offering superior durability, chemical resistance, and minimal maintenance. Unlike traditional terrazzo, which relies on softer marble aggregates and requires frequent polishing, Modena TGE incorporates harder, non-reactive materials. The result is a resilient, long-lasting surface that withstands wear, resists staining, and maintains its beauty with minimal upkeep.

CUSTOM POLISHING SYSTEMS

MODENA TGE

REALIZE The Possibilities.

Engineered for Demanding Spaces

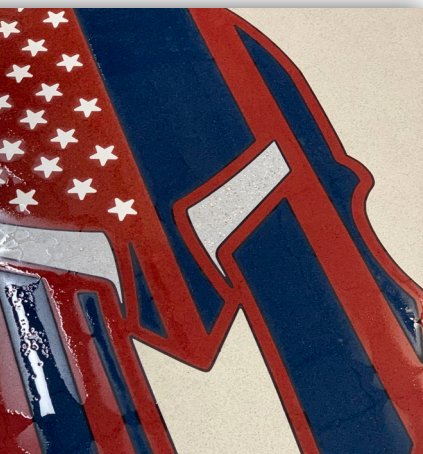

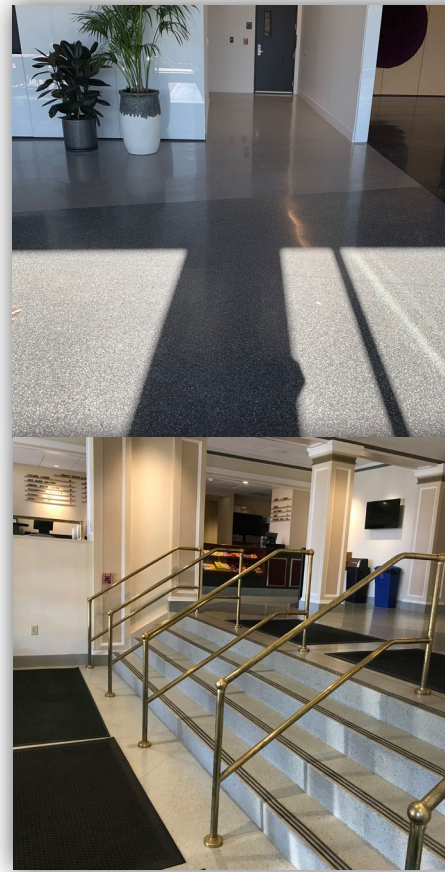

From bustling airports and high-traffic retail stores to luxury hotels and corporate offices, Modena TGE is designed to endure the toughest conditions. Its seamless, non-porous surface repels moisture, prevents bacteria buildup, and resists scratches, making it an ideal choice for environments that require both hygiene and durability. With easy cleaning and minimal maintenance requirements, it offers a practical, cost-effective flooring solution for commercial applications.

Designed Without Limits

Modena TGE allows complete design freedom, offering an extensive range of colors, patterns, and inlay options. Whether you envision a sophisticated neutral palette, bold branding elements, or intricate artistic designs, this system can bring any concept to life. With the ability to integrate custom logos, geometric patterns, and unique aggregate blends, it transforms flooring into a true design feature that enhances any space.

Sustainability Meets Strength

Made with high-quality aggregates, including natural stone, recycled glass, and other eco-conscious materials, Modena TGE provides a sustainable flooring solution without compromising on performance. Its extended lifespan reduces replacement needs, lowering overall environmental impact while delivering long-term value. By combining aesthetics, durability, and sustainability, Modena TGE stands as the smart choice for modern, high-performance commercial flooring.
